

OmniView Dual PRO Daisy-Chain Cable, 3 feet - F1D109-03

OmniView Dual PRO Daisy-Chain Cables allow you to daisy-chain multiple Dual-User PRO3 KVM Switches to expand your server configuration. Our advanced wiring design and coaxial VGA cabling preserve signal integrity from the first to the last server.

Product Features:

- Comes with a Belkin Lifetime Warranty
- Protects against damage to conductors
- Reduces electromagnetic and radio frequency interference (EMI/RFI)
- Preserves signal integrity at higher resolutions with coaxial VGA cabling
- Preserves signal integrity at higher resolutions with coaxial VGA cabling
- Minimizes crosstalk with individually insulated copper conductors
