

## N Modem Router

Belkin's N Wireless Modem Router is perfect for setting up a wireless network that has the range to easily cover any-size home or office. The N Wireless Modem Router has the fastest speeds for handling applications that take up large amounts of your bandwidth.

Connecting the N Wireless Modem Router to your ADSL line lets you share your broadband Internet account with all your networked computers. Now you can quickly and efficiently exchange documents, share resources, and stream digital music throughout your network.

The N Wireless Modem Router is the central connection point of your wireless network. You can add up to 16 computers to your Wireless Network with additional desktop and notebook adapters. Position your Belkin Modem Router in between your Broadband ADSL line and your computer to start sharing your broadband Internet access.

For better wireless performance, use the Belkin N Wireless Router with an N Wireless USB Adapter (F5D8053), Notebook Card (F5D8013), and ExpressCard Adapter (F5D8073) connecting your client computers. (Sold separately)

### Benefits

---

- 4 Ethernet Ports for Wired Connections
- Supports Wi-Fi Protected Setup Push button for simple wireless security setup
- Draft 802.11n 2.0 increases your networks wireless range and speed than 802.11g
- Compatible with ADSL, ADSL 2 & ADSL 2+
- Easy setup Assistant and troubleshooting with Network Status Display
- Free 24/7 technical support (local rates apply)
- Manufacturer's Lifetime Warranty

### Package Includes

---

- N Wireless Modem Router
- Setup Assistant CD
- Power Supply
- Quick Installation Guide
- LED Troubleshooting Guide
- Security Setup Guide
- RJ45 Ethernet Networking Cable

- RJ11 Phone Line Cord
- ADSL In-Line Filter (in Some Regions)

## Technical Specifications
