

Pro Series Non-IEEE Parallel Printer Cable (A/B) - 9M (30 feet) - F2A036b30

You've purchased the printer of your dreams, but a faulty printer cable keeps sending it error filled data. This Belkin Standard Series printer cable will keep that dream machine error free.

This Standard Series Bi-Directional Printer Cable attaches any PC with DB25 female parallel ports to parallel printers with Centronics 36 female ports. Supports any non-IEEE 1284 compliant computers or printers.

Product Features:

- State-of-the-art-wiring design ensures 100% compatibility with all devices 100% of the time.
- Gold plated copper contacts provide maximum conductivity and keep data loss to a minimum.
- Oversized ergonomic thumbscrews make installation a breeze.
- A Belkin certified lifetime warranty.
- Molded strain relief and PVC overmolding to ensure a lifetime of error-free data transmission.
- 28 AWG stranded tinned copper conductors are individually insulated in polypropylene to minimize cross talk, ensuring high-speed, error-free transmission.
- Ground indents provide excellent conductivity and retention with mating conductors.
- PVC premold encapsulates individual conductors to ensure electrical isolation and relieve stress.
- Aluminum undermold shielding helps to meet FCC requirements on EMI/RFI interference.
- <i>Without Retail Packaging</i>
