

2-Port Reverse KVM Switch

Allows two users to share one PC or KVM switch seamlessly.

Benefits

- Control one PC or KVM switch with two keyboards, mice and monitors
- Automatically switches between each console during use
- No software required
- Includes 0.9Metre(3 ft.), all-in-one KVM cable
- Featuring autoswitching technology, it is ideal for training environments where a second user must be shown how to perform specific tasks, or for using specialized secondary keyboards, monitors, and mice or trackballs in addition to the standard devices.
