NeuElements RATING SYSTEM

 Durability	4	Our frontline NE series accents ballistic nylon with our new Synthi2 fabric, lending luxury to rugged endurance. Microfiber and Napa blends round out our upscale editions.
 Smart Storage	4	NE cases provide easy-access storage for your business essentials, perfect for use on the fly—in airports, waiting rooms, limos, and other offices. Removable cases add functionality.
 Comfort	5	NE architecture emphasises comfort to ease your travel experience. Featuring straps of soft-elastic neoprene, and ergonomic non-slip leather or nylon handles, the cases manage easily when fully loaded.
 Protection	4	Our superior construction focuses on meticulous material selection and evaluation. For the best shock-damage protection, we use thick foam padding and an internal, rigid frame.
 Lifestyle	5	NE products put technology in motion with designs that fit a range of mobile lifestyles. We let form meet function, and guarantee our cases for life.

www.stuffbak.com

StuffBak provides a seamless loss-protection service that helps retrieve your missing possessions. Your Belkin NE case includes our unique ID that tells the finder how to return it easily and get a reward, too. Placing a StuffBak label on any of your important gear can help you get it back, and avoid desperate Lost & Found searches.
