ENGLISH | Features

- 1 **Chrome-Finished Connectors and Nickel-Plated Contacts**
Provide maximum conductivity and prevent corrosion
- 2 **Color-Coded Connectors**
Help ensure easy identification and proper connection
- 3 **Aluminum Undermold Shield**
Ensures optimum signal integrity
- 4 **High-Quality Copper**
Allows consistent signal between components
- 5 **Braid-and-Foil Shield**
Reduces EM/RF interference

FRANÇAIS | Caractéristiques

- 1 **Connecteurs chromés et contacts nickelés**
Assurent une conductivité maximale et empêchent la corrosion
- 2 **Connecteurs de couleur**
Permettent l'identification facile et correcte des connexions
- 3 **Blindage sous-moulé en aluminium**
Garantit l'intégrité optimale du signal
- 4 **Cuivre de grande qualité**
Permet une transmission uniforme du signal
- 5 **Blindage feuillard et tresse**
Réduit les interférences EM/RF

DEUTSCH | Merkmale

- 1 **Verchromte Steckverbinder und vernickelte Kontakte**
Maximale Leitfähigkeit und Schutz vor Korrosion
- 2 **Farbkodierte Steckverbinder**
Erleichtern die Erkennung und den ordnungsgemäßen Anschluss
- 3 **Aluminium- abschirmung**
Garantiert optimale Signalintegrität
- 4 **Hochwertiges Kupfer**
Ermöglicht konsistente Signalübertragung zwischen den Komponenten
- 5 **Folien- und Geflechschirmung**
Reduziert elektromagnetische (EMI) und hochfrequente (RFI) Störungen

ESPAÑOL | Características

- 1 **Conectores con terminación de cromo y contactos chapados en níquel**
Proporcionan la máxima conductividad y evitan la corrosión
- 2 **Conectores con código de color**
Contribuyen a una sencilla identificación y a una correcta conexión
- 3 **Protección de aluminio bajo la cubierta**
Garantiza la integridad óptima de la señal
- 4 **Cobre de alta calidad**
Asegura la consistencia de la señal entre los componentes
- 5 **Protección de aluminio trenzado**
Reduce las interferencias electromagnéticas y de radiofrecuencia

ITALIANO | Caratteristiche

- 1 **Connettori cromati e contatti placcati in nichel**
Offrono una conduttività eccellente e impediscono la corrosione
- 2 **Connettori a codice cromatico**
Semplifica l'identificazione e la connessione
- 3 **Schermatura interna in alluminio**
Garantisce la massima integrità del segnale
- 4 **Rame di alta qualità**
Permette una trasmissione del segnale costante tra i componenti
- 5 **Schermatura in foglio di alluminio e calza di rame**
Riduce le interferenze elettromagnetiche e di radiofrequenza
