Non ricarica le batterie

Now you can use your iPod, PDA, MP3, CD, cassette player, computer, or laptop to listen to your favorite tunes through any FM stereo receiver.

The Belkin TuneCast II connects portable music players to your car or home stereo quickly and easily using FM radio waves.

Includes 2 AAA batteries

iPod not included

Recommended Additions:

Just plug the TuneCast II into the headphone jack of your iPod, PDA, MP3, CD, or cassette player; or connect it to your desktop or laptop computer.

The Auto ON/OFF function frees you from having to manually toggle the ON/OFF switch. It simply powers on when an audio signal is detected. If no signal is detected for a period of 60 seconds, your TuneCast II switches off to preserve battery life.

The TuneCast II also includes a 14-inch cable that delivers power when used with the Belkin Auto Power Cord for iPod (part number F8V7067eaAPL), so that you can preserve your batteries for times when you are away from an alternate source.

Tunecast II is Certified and conforms to EN 301 357 and CPT REC 70-03
