

54g technology is the easiest wireless network to implement.

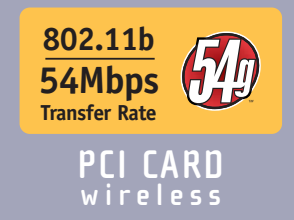

The 54g Wireless Desktop Network Card from Belkin networking works as an ideal standalone to give you instant networking capabilities. It features breakthrough 54g technology that makes wireless file transfers and downloads faster than ever before. 54g technology provides you with networking speeds nearly five times faster than the current Wi-Fi (802.11b) standard. The Card sets up on any desktop PC, with the simplicity of Plug-and-Play technology. The Card uses the wireless 54g 2.4GHz standard to offer you the widest working range. 54g is backward-compatible with the 802.11b Wi-Fi networking standard, allowing you to implement faster wireless technologies in combination with existing 802.11b Wi-Fi networks.

Now you can transfer files around the home or office—enjoying freedom from cables along with all the advantages of a wired network.

Benefits

- Fits any standard 32-bit PCI expansion slot
- Offers interoperability with all 802.11b 2.4GHz wireless devices
- Features wireless 64- and 128-bit WEP encryption
- Allows you to use *g-Only Mode* and network at 54Mbps, the highest data rate for all 54g clients
- Installs with Plug-and-Play convenience
- Works with Windows® 98, 98 SE, 2000, Me, and XP
- Comes with a Belkin Lifetime Warranty and free technical support

Connect your desktop PC to a faster wireless network

Package Includes:

- 54g Wireless Desktop Network Card
- User Manual
- Software CD

System Requirements:

- PC with available PCI slot
- PC running Windows® 98, 98 SE, 2000, Me, or XP

Specifications:

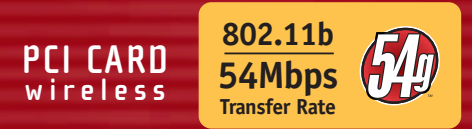

- Interface:** 32-bit PCI
- Operating Frequency:** 2.412-2.487GHz ISM band
- Operating Range:** Up to 450 m
- Security:** 64/128-bit WEP
- LEDs:** Power, Radio Activity Indicator
- OS Support:** Windows 98, 98 SE, Me, 2000, XP
- Regulatory:** FCC Class B, CE, ICES, C-Tick

Lifetime Warranty and Free Technical Support
