Now you can use your iPod to listen to your favorite tunes through any FM stereo receiver. The Belkin TuneFM™ wirelessly connects your iPod to your car, home, or portable stereo quickly and easily. Just plug the TuneFM into the remote/headphone jack on your iPod. Tune your stereo to any clear FM frequency, and enjoy your iPod music anywhere with full sound and fewer wires. Preset/ memory slots give you total control at the touch of your fingertips, and the LED display indicates FM frequency and memory preset, eliminating the need to use the iPod interface for frequency selection. Since the TuneFM is powered by the iPod, no batteries are required.
