BELKIN. Add USB ports—save space
Flexible-Fit In-Desk USB Hub

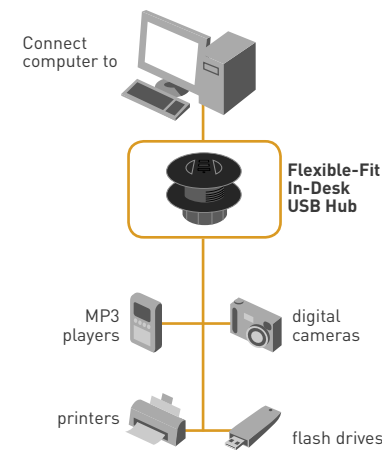

“Belkin is the #1 USB cable and hub manufacturer.”—NPD Group

Nearly all your mobile gadgets plug in to your computer through USB. You can make quick and convenient connections through the Flexible-Fit In-Desk USB Hub for your flash drive, camera, and more—and save space around your computer.

The Hub easily fits into a round opening in your desk that measures from two to three inches in diameter. You can connect the Hub directly to your computer with the included USB cable.

Note: If your desk does not have a pre-drilled hole in it, you can drill one yourself using a hole saw (requires separate purchase, not from Belkin).

System Requirements

- For PC Users
- Pentium® processor-based computer with Hi-Speed USB 2.0 port available
