

BELKIN®

Wi-Fi® Phone for Skype™

F1PP000GNuKSK

Make FREE Unlimited phone calls over Wi-Fi networks—without a computer

Now you can enjoy the savings of Skype calls wirelessly, without the hassle of using your computer. The Belkin Wi-Fi Phone features the Skype interface, so it's ready for use with any wireless network. To make a call, simply use the intuitive, on-screen color menu to locate your contacts and view their online availability—exactly as you use Skype today. The Phone adheres to all Skype requirements and ensures you an outstanding Wi-Fi experience that works as seamlessly as Skype works over your computer.

Use it anywhere in the world through secured or open access to a Wi-Fi network. You can make and receive calls at home, at your office, in cafés, or through municipal access. Anywhere you can connect without browser-based authentication, you can make Skype calls.

Benefits

- Allows users to make or receive Skype phone calls as long as users are in the coverage of a wireless local area network (LAN)
- Complies with the IEEE 802.11b/g wireless standard
- Helps users make phone calls without the hassle of turning on your computer
- Features compact and elegant design
- Offers the mobility of Wi-Fi with the cost savings of Skype
- Allows users to make VoIP calls at work, home, and on campus with traditional-phone voice quality
- Eliminates hassle of SSID or security-key input; the Wi-Fi Phone stores these configurations and automatically connects to access points upon boot up
- Works with almost all standard 802.11b/g access points
- Offers hassle-free installation and account startup

Features

Easily Connect to Wi-Fi Access Points

Once you power up, you can easily configure your Belkin Wi-Fi Phone to connect to an access point of your choosing. The auto-connect feature allows the Phone to connect to the first available access point. You can also set up an access-point profile to connect to only the networks that are in your preferred list of SSIDs. Finally, you can use the Phone to connect to any access point either through the WLAN finder or by inputting a hidden SSID manually. You'll see the full list of available networks and their relative signal strengths.

Advanced Security

The Belkin Wi-Fi Phone supports Wi-Fi Protected Access (WPA) and WPA2 with pre-shared keys (PSKs) to keep your conversation secure. WPA supports Temporal Key Integrity Protocol (TKIP) while WPA2 supports Advanced Encryption Standard (AES) encryption.

Compatible with wireless networking standards 802.11b and g

This allows a user to connect to his or her home's WLAN network as well as to hotspots around the world.

Make FREE Unlimited phone calls over Wi-Fi networks

No computer required

Easy-to-Use Interface

Over 100 Million Registered Users and Growing

- International – call friends and family anywhere in the world
- Students – keep in touch with family and friends
- Business – talk to contacts and associates
- Family – stay close with relatives and friends

Specifications

General Features

- Easy Start-Up
- WLAN Locator
- Internet Service Provider (ISP) Login
- Set SSID
- Basic WMM

Call Features

- SkypeIn™
- SkypeOut™
- Voice Mail
- Call History

Phone Features

- Auto Contact-List Import
- Presence
- Add/Remove User from Contact List
- Quick Filter

Application Features

- Clock

Physical/Connectors

- 1 x 802.11b/g wireless interface
- 1 x mini-USB connector

Wireless

- IEEE 802.11b/g support
- IEEE 802.11f IAPP
- Frequency 2.4–2.497GHz
- Channel:
 - FCC 1~11
 - ETSI 1~13
 - Japan 1~14
- Data Rates: 54-, 48-, 36-, 24-, 18-, 11.5-, 5.5-, 2-, 1Mbps

Antenna

- Omnidirectional
- 2.4–2.497GHz
- 2.5 dBi

Security

- WEP 64-/128-bit
- WPA with PSK (Phase 2)
- WPA with 802.1x/AES (Phase 2)
- WPA2 with PSK (Phase 2)
- WPA2 with 802.1x/AES (Phase 2)

Dimensions

- (H x W x D): 115mm x 49.5mm x 19mm

Power Supply/Power Adapter

- AC adapter (included) to charge battery: DC voltage

Environment Requirements

- Temperature: IEC 68-2-14
 - 10–50 degrees C (standard operation)
 - 40–70 degrees C (non-operation)
- Humidity: 5%–95% (non-condensing)
- Vibration: IEC 68-2-36, IEC 68-2-6
- Shock: IEC 68-2-29
- Drop: IEC 68-2-32

Industry-Standards Support

- IEEE 802.11b/g
- IEEE 802.11e
- IEEE 802.11f
- WEP/WPA/WPA2

Emissions/Agency Approval/Safety

- Safety: UL/cUL (UL 60950), CB EN60950, PSE
- EMC: FCC Part 15B Class B, FCC Part 15C, FCC Part 68, CE EN55022 Class B, VCCI
- EMS: CE EN55024, CE EN300328, CE EN301489

Package Includes

- Wi-Fi Phone for Skype
- AC Adapter
- User Manual (CD)
- Quick Start Guide (hard copy)

Optional Accessories

- Cradle Charger
- Cradle Access Point
