

## OmniView E Series KVM Switch

Share two or four PS/2 computers with one monitor, keyboard, and mouse

The OmniView E Series PS/2 KVM Switch provides a low-cost KVM solution that saves valuable workspace while giving you control of up to four PS/2-based computers from one console. The unit supports video resolutions of up to 1920x1440@75Hz through unique consolidated cable kits. E Series Switches also include the required cables, which means less money, time, and confusion spent on a complete KVM solution.
