Instructions for Mac OS 9 installation for the Nostromo SpeedPad:

Download the files to your computer. An "Install Belkin Nostromo N50" icon will appear on your desktop. Double-click the icon to start the installer. Next, click on "Install" to continue the procedure. When prompted, restart your computer. Following the restart, your software will be installed and ready to use.

To access the Nostromo program go to the "Apple" menu, then "Control Panels". Click on "Nostromo Control" to open the application.

To uninstall the software, double-click on your hard drive folder. Then double click on the system folder. Then select "Control Panels". Find "Nostromo Control" and drag it to the trash. This completes the uninstall process for your Nostromo software.

For instructions and a tutorial on how to create a profile, please review the help files on the Nostromo Control Program menu bar.
