

Office Series Battery Backup

Protect your equipment and data during power failures

The Office Series Battery Backup from Belkin gives you peace of mind during virtually all types of power disturbances. Designed to protect your computers, data, and other electrical equipment, these Battery Backups feature six surge-protected outlets that deliver grounded AC power to your computer. Four outlets provide battery backup, engineered to keep your computer on during a blackout, giving you plenty of time to safely close files and shut down. Automatic Voltage Regulation (AVR) technology delivers safe and clean power to all your attached components. It protects your equipment from power sags and spikes and ensures faster response when power fluctuates.

Belkin Power Management Software sends proactive alerts in a power outage. Other functions include messaging, diagnostic support, history logs, scheduled shutdowns, and event management. Now in the event of a power failure, you can retrieve valuable data that would otherwise be lost. USB ports provide easy Plug-and-Play connectivity and the convenience of faster data-transfer speeds between the computer and the Battery Backup unit. RJ11 surge protection also safeguards your telecommunications equipment including telephones, faxes, and modems.

Benefits

- Offers convenient Plug-and-Play connections with high-quality Belkin cables
- Features RJ11 surge protection for telecommunications equipment
- Includes Power Management Software for automatic shutdowns
- Provides proactive alerts, messaging, diagnostic support, and history logs
- Schedules shutdowns and allows you to manage events
- Gives you 6 surge-protected outlets, 4 with battery backup
- Delivers fast data-transfer speed with USB connectivity
- Helps manage and protect multiple computers with serial connectors
- Comes with a Belkin 3-Year Product Warranty, Data Recovery Warranty, and \$75,000 Connected Equipment Warranty

Models

Part #	VA	WATTS	Communication	CEW	Outlets	Joules
F6C550-AVR	550	330	USB	\$75,000	6	890
F6C750-AVR	750	400	USB	\$75,000	6	890
F6B750-AVR	750	400	USB	\$75,000	6	890 (with broadband protection)

Connected Equipment Warranty

\$75,000

Under/Overvoltage Transfer to Battery

90–136 +/- 3VAC

Output Voltage on Battery

120VAC +/- 5%

AVR Voltage Detection Tolerance

+/- 3VAC

AVR Smart Boost

Increase 20% of input of voltage if input is 90–108VAC

AVR Output Voltage Range

Online operation for input: 90–136VAC; output will be 90–136VAC

Typical Battery Recharge Time

8–12 Hours

Frequency

60Hz

Joule Rating

890

Protection/Certification

Thermal Breaker Device (UL/CSA-approved)

Typical Battery Life

2–4 Years

Safety Standards

Electrostatic Discharge: IEC 1000-4-2 Level 3

Fast Transient Burst: IEC 1000-4-4 Level 2

Lightning Surge: IEC 1000-4-5 Level 3

IC: CS-03

System Requirements

Computer with USB port

AC outlet

Package Includes

Office Series Battery Backup
