Belkin Limited reserves the right to negotiate the cost of repairs. If Belkin Limited determines, in its sole discretion, that it is impractical to ship the damaged equipment to Belkin Limited, Belkin Limited may designate, in its sole discretion, an equipment repair facility to inspect and estimate the cost to repair such equipment. The cost, if any, of shipping the equipment to such repair facility and of such estimate shall be borne solely by the consumer or end-user. Damaged equipment must remain available for inspection until the claim is finalised.

All Belkin UPS' must be plugged directly into the power source and must not be "daisychained" together in serial fashion with other UPS, power strips, surge protectors or extension cords. Any such installation voids these warranties. The Belkin Connected Equipment Warranty only protects against damage to properly connected equipment where Belkin Limited has determined, in its sole discretion, that the damage resulted from an Occurrence, and does not protect against acts of God, (other than lightning), such as flood, earthquake, war, vandalism, theft, normal-use wear and tear, erosion, depletion, obsolescence, abuse, non-authorized programme, or system equipment modification or alteration.

In no event shall Belkin Limited be liable for incidental, special, indirect, consequential or multiple damages such as, but not limited to, lost business or profits arising out of the sale or use of any Belkin UPS, the loss of service, software or information or damage to any computer media, even if advised of the possibility of such damages. The limitations provided herein do not affect the consumer's statutory rights under applicable national laws in force, nor the consumer's rights against the retailer arising from its sales/purchase contract. Nothing herein shall serve to exclude or limit the liability of Belkin Limited for the death or personal injury of the consumer resulting from the negligence of Belkin Limited.**
