## Belkin honoured with five 2012 CES Innovations Awards for excellence in design and engineering

### *Belkin Kitchen Cabinet Mount earns Best of Innovations designation*

(Rushden, UK) 8 November, 2011 – Five Belkin products have been honoured with prestigious 2012 CES Innovations Awards, including one Best of Innovations Award for the Belkin Kitchen Cabinet Mount for tablets. The awards, chosen by the Consumer Electronics Association's (CEA) panel of independent industry experts and trade media, recognise Belkin's achievements in innovations, design, and engineering.

"Innovation in design and engineering is at the heart of our brand and we are proud to be recognised by the CEA for achievements in this arena," said Chet Pipkin, president and CEO of Belkin. "The five products honoured show the passion we have for creating products and experiences that make people's lives easier through technology."

The Belkin products honoured are:

**Kitchen Cabinet Mount** – Best of Innovations Honouree, Portable Multimedia Accessories category

The [Kitchen Cabinet Mount](#) was created to help free up valuable work-top space and keep your tablet in view and securely suspended on any cabinet or shelf. It can be easily installed, removed, and stored.

**Chef Stand + Stylus** – Design and Engineering Awards Honouree, Portable Multimedia Accessories category

Kitchen-safe and designed for use with messy hands, the [Chef Stand + Stylus](#) allows you to scroll through recipes without getting your iPad 2 dirty. The product features dual angles for easy viewing and a non-slip rubber base, perfect for use on kitchen work surfaces.

**Advanced Secure DVI-I KVM Switch** – Design and Engineering Awards Honouree, Computer Peripherals category

The Advanced Secure DVI-I KVM Switch is designed specifically for the defence and intelligence communities and allows access to multiple systems and different classes of networks from a single user console.

**ScreenCast TV Adaptor for Intel® Wireless Display** – Design and Engineering Awards Honouree, Home Networking category  
Belkin's [ScreenCast TV Adaptor for Intel® Wireless Display](#) eliminates the need to crowd around a small laptop screen to share photos, stream HD videos, or watch Blu-ray™ movies with friends and family by wirelessly transferring personal or online content from any WIDI-enabled laptop to any HDTV with an available HDMI® port.

**ScreenCast AV 4 Wireless AV-to-HDTV Adaptor** – Design and Engineering Awards Honouree, Home Theatre Audio/Video Accessories category  
[ScreenCast AV 4](#) wirelessly connects your home theatre equipment to your HDTV via a transmitter connected to the device's HDMI connection. The powerful transmitter enables you to locate AV equipment up to 100 feet away within a room, or hide them in a cabinet or adjacent room at a reduced distance.

Winning products will be displayed at CES 2012, 10-13 January, in Las Vegas at the Innovations Design and Engineering Showcase in the Grand Lobby of the Las Vegas Convention Centre.

Sponsored by the Consumer Electronics Association (CEA) and endorsed by the Industrial Designers Society of America (IDSA), the Innovations Design and Engineering Awards reflect innovative design and engineering. All entries were judged by a preeminent panel of independent industrial designers, independent engineers, and members of the trade press.
