

**Addendum to F5D6230\*3/F5D5230\*4 manual – 08/07/2002**

**PPTP Support**

PPTP support is not provided in the Belkin Wireless/Wired routers as standard. If your ISP requires that you use PPTP, please visit <http://networking.belkin.com/> and browse to the “Firmware Update” section. In here you will find the firmware upgrade and installation instructions.

**Idle timeout support**

Idle timeout support is also not included as standard in the Belkin Wireless/Wired routers. If you need idle timeout support please visit <http://networking.belkin.com/> and browse to the “Firmware Update” section.

The above two features are included in the same F5D6230\*3/F5D5230\*4 firmware update.

For further information or support please contact the “Free phone” Belkin technical support line or contact us via email.

“Belkin Free Phone Tech Support”

00 800 223 55 460 \*

[eurosupport@belkin.com](mailto:eurosupport@belkin.com)

\* Internationally from Austria, Belgium, Denmark, Finland, France, Germany, Hungary, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland

We now also provide support for the following...Poland, Czech Republic & Russia (Moscow)

**\*No country code is needed.** To dial this number from the one of these countries, dial: 00 (international access code) 800 22355460. Do not enter the country code, either the local country code or the country code for the UK.

**\* Idle timeout support is an advisable feature if your ISP connection costs are charged per minute.**

**This feature allows you to set a predetermined connection time to the Internet and/or provides you with a manual Internet disconnection button.**
