DECLARATION OF CONFORMITY WITH FCC RULES FOR ELECTROMAGNETIC COMPATIBILITY

We, Belkin International, Inc. 555 S Aviation Blvd. Suite 180, El Segundo, CA 90245-4852, Tel: +1 (310) 751 5100, declare under our sole responsibility that the products to which this declaration relates, complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and

(2) this device must accept any interference received, including interference that may cause undesired operation.

Federal Communications Commission Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the distance between the equipment and the receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

IMPORTANT NOTE:
Innovation, Science and Economic Development Canada Statement
ISED Statement:
This digital apparatus complies with CAN ICES(B) / NMB(B).

DISPOSAL INFORMATION FOR USER

For information on product disposal, please refer to http://www.belkin.com/uk/weee-regulations/

Pursuant to and in accordance with Article 14 of the Directive 2012/19/EU of the European Parliament on waste in electrical and electronic equipment (WEEE).

The barred symbol of the rubbish bin shown on the equipment indicates that, at the end of its useful life, the product must be collected separately from other waste.

Therefore, any product that has reached the end of its useful life must be given to waste disposal centers specializing in separate collection of waste electrical and electronic equipment or given back to the dealer when purchasing a new WEEE, pursuant to and in accordance with Article 14 as implemented in the country.

The adequate separate collection for the subsequent start-up of the equipment sent to be recycled, treated and disposed of in an environmentally compatible way contributes to preventing possible negative effects on the environment and health and optimizes the recycling and reuse of components making up the electronic equipment.

Abusive disposal of the product by the user involves application of the administrative sanctions according to the laws in force.

Safety Instructions

WARNING: Failure to follow these instructions could result in fire, electric shock, injury, or damage to the user, product or other property.
