

Optional Field Service Accessories for Secure KVMs

Belkin's Cybersecurity solutions include NIAP certified secure KVMs that use an external power supply. The external nature of the power supply allows for easy field replacement should the supply fail, eliminating the need to return the entire unit for service. The following details the replaceable power supply part numbers available for secure 2-port and 4-port KVMs, KMs, and Windowing KVMs. "NA" refers to North American prongs, "EU" to European Union standard prongs, "UK" to United Kingdom, and "AU" to Australian power prongs. Please contact Belkin sales for pricing and availability.

Power Supplies

PSU SKU	KVM SKUs Used With	Notes
SECURE 2-PORT KVM
