

BRIDGE

CONTROL WEMO WITH Apple Home app or Siri

The Wemo Bridge lets you control Wemo products using the Apple Home app and Siri on your iPhone, iPad and Apple Watch. Plug it directly into your router and then use the free Wemo App, Apple Home app or Siri to control your lights and appliances from the couch, coffee shop or Caribbean. You can also create personalized scenarios such as movie lighting or schedule lights and appliances for a morning routine.

BRIDGE

FEATURES

YOUR HOME. YOUR WAY. FROM ANYWHERE.

Control Wemo while away from home using the Apple Home app through Apple TV, or iPad set up as a home hub.

CREATE THE PERFECT SCENE.

Set a custom scene to control multiple devices at once. Just say “Siri, good morning” to start a personalized scene to warm up the house, turn on lights and brew your morning coffee. .

ASK SIRI TO CONTROL YOUR WEMO DEVICES

Use voice commands to control Wemo by asking Siri. Just ask, “Hey Siri, dim the kitchen lights”.

TAKE CONTROL OF YOUR HOME. ROOM BY ROOM.

Group Wemo devices by room to control them all at once with your voice or with the tap of a button. Simply ask, “Hey Siri, turn off Kyle’s bedroom”.

SET CUSTOMIZED SCHEDULES

Set automatic schedules for lights and appliances connected to Wemo. Schedule a fan to turn on at noon or the porch light to turn on at sunset.

SLEEK AND COMPACT

The Wemo Bridge is compact, white, sleek and unobtrusive to blend in seamlessly with your home décor.
