

INSIGHT WiFi SMART PLUG

DIM THE LIGHTS FROM ANYWHERE

Wemo Insight uses your WiFi network for wireless control of lamps, heaters, fans and more. Even better, you can get real-time reports about energy consumption. So you'll know how much that space heater is really costing you. Now you can use the free Wemo App, Amazon Alexa, Google Assistant and Apple Home app or Siri* to control your lights and appliances from the couch, coffee shop or Caribbean.

SAVE

Monitor your home to cut energy costs.

VOICE

Control Wemo hands-free using your voice.*

CONTROL

Control and schedule lights and appliances from anywhere.

PROTECT

Look like you're home even when you're not.

*When paired with a voice recognition device or service, sold separately.

INSIGHT WiFi SMART PLUG

INSIGHT PLAYS WELL WITH

Talk to Google Assistant for hands-free voice control. Pair Insight with a Google Assistant enabled device and have a conversation with Google to control your lights and appliances.

Wemo works with Alexa for hands-free voice control. Pair Insight with an Amazon Alexa enabled device and use your voice to control your lights and appliances.

Wemo is now compatible with Apple HomeKit. Connect Wemo Bridge to your router and control Wemo with the Apple Home app and Siri on your iPhone, iPad and Apple Watch.

In “home” and “away” mode, Nest will automatically control your Insight so your fan turns off to save energy when your home is empty or lights turn on a when you come home.

IFTTT

“If This, Then That” lets you do amazing things with Wemo. Visit IFTTT.com for “recipes” to make Wemo turn lights and appliances on and off based on real-world events and much more.
