

## WiFi SMART LIGHT SWITCH

# NEVER COME HOME TO A DARK HOUSE

Wemo Light Switch is a smart light switch that lets you control your lights, porch lights and ceiling fans from anywhere with WiFi. Use your phone, tablet or voice and the free Wemo App, Amazon Alexa, Google Assistant and Apple Home app or Siri\* to control your lights from the couch, coffee shop or Caribbean.

### VOICE

Control Wemo hands-free using your voice.\*

### SCHEDULE

Set on/off times or sync lights to the sun.

### PROTECT

Look like you're home even when you're not.

### LONG PRESS

Group Wemos to respond to a 2-second button press.

\*When paired with a voice recognition device or service, sold separately.

# WiFi SMART LIGHT SWITCH

## LIGHT SWITCH PLAYS WELL WITH

Talk to Google Assistant for hands-free voice control. Pair Light Switch with a Google Assistant enabled device and have a conversation with Google to control your lights.

Wemo works with Alexa for hands-free voice control. Pair Light Switch with an Amazon Alexa enabled device and use your voice to control your lights and appliances.

Wemo is now compatible with Apple HomeKit. Connect Wemo Bridge to your router and control Wemo with the Apple Home app and Siri on your iPhone, iPad and Apple Watch.

In “home” and “away” mode, Nest will automatically control your Light Switch so your fan turns off to save energy when your home is empty or lights turn on a when you come home.

## IFTTT

“If This, Then That” lets you do amazing things with Wemo. Visit IFTTT.com for “recipes” to make Wemo turn lights and appliances on and off based on real-world events and much more.
